DETAILED ACTION

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:

 The specification shall conclude with one or more claims particularly pointing out and distinct.
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claim 168 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 168 is rejected based on lack of positive antecedent basis of "the address information" on line 1. It appears as though claim 168 should perhaps depend on claim 167 instead of claim 163.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter:

The independent claims include limitations directed to the use of a programmable register in the memory device which stores a value that indicates an amount of time to transpire before the memory outputs data, the value stored in the register in response to a first operation code; and the output driver circuitry outputting a first portion of the data synchronous to a first transition of the clock signal and a second portion of the data synchronous to a second transition of the clock signal. This combination of limitations does not appear to be present in the prior art and would not have been obvious.
